Buffalo Mixture - Summer Pasture \$ 4.35 /lb

- 35% Meadow Bromegrass, Fleet
- 25% Timothy, Alma
- 20% Creeping Red Fescue
- 20% Meadow Foxtail

Buffalo do not like cereal pastures such as oats, nor do they like high protein forages like clover, alfalfa or other legumes. In winter they prefer to paw through the snow to graze the fescue rather than eating any hay. As such it is suggested to incorporate creeping red fescue into the pasture.

Elk Mixture \$ 5.25 /lb

- 50% Alfalfa, Hannas High Tech Brand
- 50% Meadow Bromegrass

Elk do not prefer a single species diet; therefore, Meadow Bromegrass is often seeded with the legume. Alfalfa for high production and persistence.
